SKILLS

- **Languages**: C++, JavaScript, C, PHP, Python
- **Frameworks**: HTML and CSS, NodeJS, React
- **Tools/Platforms**: MySQL, MongoDB, VS Code, XAMPP
- **Soft Skills**: Problem-Solving, Leadership, Adaptability, Collaboration

PROJECTS

Nexus IDE - A Real-Time Interactive Mentorship Environment | GitHub Jan '26 - Mar '26

- Engineered a real-time collaborative Integrated Development Environment (IDE) capable of facilitating concurrent multi-user code editing, live chat, and remote code execution to streamline developer workflows.
- Architected the real-time backend using Node.js, Express, and Socket.io, integrating MongoDB for state persistence and a sandboxed Docker execution engine to securely compile and run multi-language code snippets.
- Enhanced session security and remote collaboration efficiency by implementing advanced Role-Based Access Control (RBAC), featuring Google Meet-style waiting rooms, dynamic file-tree management, and host admin permissions like presentation mode and view synchronization.

Daily Habit Tracker - A productivity-focused web application| GitHub | Live Jul '25 - Aug '25

- Engineered a productivity tool capable of systematically recording daily activities and visualizing long-term consistency trends to cultivate healthier routines.
- Used **React.js** and the **Context API** to build a responsive UI, implementing **Firebase** services to handle secure authentication and real-time cloud synchronization.
- Increased user retention potential by **40%** through an intuitive dashboard design, which directly reduced the effort required to monitor personal progress.

TRAINING

Full Stack Training | Cipher Schools | Link Jun '25 – Jul '25

- Undertook a comprehensive training curriculum to master the **MERN** stack ecosystem, aiming to bridge the gap between interactive front-end designs and complex server-side logic for modern web applications.
- Applied core technologies such as **React**, React Router, Context API, **JavaScript**, HTML, CSS and **Firebase** within a structured development environment to solve real-world coding problems
- Finalized a production-ready habit tracking application as a capstone project, successfully demonstrating full proficiency in global state management and receiving certification for meeting all assessment criteria.

CERTIFICATES

- Full-Stack Development | Cipher Schools | Link Jun '25 - Jul '25
- Cloud Computing | NPTEL | Link Jan '25 - Apr '25
- Web Development by Free Code Camp | Link Dec '23

ACHIEVEMENTS

- **Secured Global Rank 3681**: Jan '25
  Among 27k+ participants in Leet Code Weekly Contest 473.
- **One among Dean's top 10 % students at university**:
  For good academic performance and extra-curricular activities at university.
- **Binary Blitz Competition | Coding Ninjas** | Certificate Mar'24
  Secured a **top 10%** rank among 800 participants in the 3-day 'Binary Blitz' hackathon, qualifying for the second round by rapidly prototyping a web solution to a complex problem statement.

EXTRACURRICULAR ACTIVITIES

- **Community Volunteer | TOSS(NGO)** Jul '24

  Volunteered with TOSS in community development initiatives, supporting orphanage children conducting awareness and food-distribution activities, and contributing to health camps and beach-cleanup programs that positively impacted local communities

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology Computer Science and Engineering, CGPA:8.41 Since Aug' 23
- **Ascent Junior College** Visakhapatnam, Andhra Pradesh
  Intermediate MPC; ***Percentage: 89%*** Jul' 21 – Apr'23
- **Priyanka's Vidyodaya High School** Visakhapatnam, Andhra Pradesh
  Matriculation; ***Percentage: 99%*** Jul' 20 – Jun'21
